

Tweedmouth West First School

Our Arts Curriculum

Respect Responsibility Resilience

At Tweedmouth West we believe that a broad and balanced curriculum must contain elements of the Arts. This is crucial in developing the child emotionally, socially, physically and creatively.

The Arts allow children opportunities to understand and respond to the world around them - sometimes this is their only means of expression.

The Arts covers a variety of elements – visual art, music, drama and performance. The children are encouraged to take part in all of these, and they offer great opportunities for children to develop their confidence and courage.

We offer individual instrument lessons with peripatetic teachers.
